BLACK UHURU W/ SLY & ROBBIE

DUBBIN' IT LIVE DVD

If you read my Dennis Brown DVD review on this site you know my stance on reggae DVDs, and how I think they should just be made into cds because you can't feel the energy that reggae is supposed to give you. Unlike Dennis Brown Live @ Reggae Canfest, this IS a Black Uhuru DVD, the whole DVD is a performance from 2001 in Nyon Switzerland. For those of you who don't know, Sly & Robbie were basically the innovators of Dance Hall, world renowned producers, and Jamaican music gods. In 2001 they teamed up w/ Black Uhuru and went on tour and this DVD is the culmination of it. The video and sound qualities are surprisingly way above par, very clean and crisp. It makes it really easy to enjoy the set. With such hits as "Guess Who's Coming To Dinner", "Sensemilla" and "What Is Life?" this DVD is a must have for any BU fan or any reggae fan for that matter!
