Rating: 5 stars!

Musically, every song is less than a minute & in most cases, each song is just barely over a minute long, the vocals are garbled & screamo, the guitars are grainy & gritty, the final mix of the recording is clean, but the band is a skate punk styled rock band that's got aggression by the boat load, every song is basically the same fast paced, boom/boom/boom, balls out, fast paced, in your faced flurry of rock frenzy! This cd is just barely 27 minutes long, it has 20 songs & it's a fast paced, in your face rocker that's worth checking out if you like a band like D.R.I., a great mix of punk music & skate style. I dig the cover for this cd too because it's a wrap around cover, if you open the front & back to make one large cover, you get a cool mural of artwork that's part Cracked, part Mad magazine, part Thrasher!
