According to Sébastien Cassou December 14, 2012

To capitalize on the success of a cult of the most known the wonderful world of exploitation film of the 70s, someone somewhere had the idea of releasing the film on DVD Jess Franco originally known as of "Wanda The Wicked Warden" renaming it "ILSA The Wicked Warden". But although the film Ilsa puts featuring the original trilogy that preceded that other masterpiece of cinema), Dyanne Thorne, and the latter is found again in the role of sadistic jailer and perverse (and naked!), the film is not really a film of Ilsa. Even if Anchor Bay had at the time included in the [box](#), because they can get their hands on the rights of third Ilsa (The Tigress of Siberia, filmed and produced in Quebec).

But, hey. Nobody offend this small detail. The important thing is to find the luscious Thorne in this character she mastered so well: the torturer slut! Nothing to do, of course, with real Dyanne Thorne who seems very wise and even directs these days with her husband a prayer group or whatever very respectable. But hey, an actor will even purest souls by all sorts of tortuous paths to get to the top.

So fourth exit Ilsa / Wanda / Greta (in the German version), this time under the direction and alongside Jess Franco who offers even a small role. The Wolf of the SS here is recycled Doctor Manager, Latin America - Yep, it's that our trip Ilsa from Nazi Europe Eastern deserts means, via Siberia to land in the Amazon - a center convalescence for girls with sexual disorders. Of course the truth is rather that this clinic is a prison for girls cheeky political prisoners and fomenting revolution and Wanda abusing his powers and charms to perfection. At his side is found in the custody of Franco muse Lina Romay, who does not hesitate to turn to stripping and pussy (as the French say!) With her sisters.

The scenario is secondary and can be summarized in a few words: A young woman tries to find her missing sister after his incarceration in the clinic and Ilsa will be interning under a pseudonym. Obviously the task is more difficult and dangerous than it originally thought.

Qu'est-ce that most resembles a movie operating another exploitation film? A copy of Jess Franco, perhaps? Nothing new under the sun of the south. Nudity, violence, exploitation of women, bad actors and mandatory shower scene! Franco adds his touch a little more daring, but unfortunately the copy obtained by Cheezy Flicks Entertainment is horribly off (by censorship in the country where it was obtained can imagine) and the result is equal to the previous ones. For lovers of French or Ilsa only.

In terms of video quality, the copy used is terribly off. Dropped frames, bits of whole scenes missing and give a weird look to it. The copy is best for [Ilsa Harem Keeper of the Oil Sheiks](#) released at the same time, but still passable. For the audio version is horribly lined with little definition or roundness frequency sound. But it is true that it is not the kind of details that annoy fans of this kind of cinema. There is no extra charge on this disc.
