song writer and lead man. Roger Waters, Dave Gilmour, Nick Mason and Rick Wright ret how Syd's slip from reality haunted the band for many years and this is clearly demonstrated in the tracks Shine On You Crazy Diamond and Wish You Were Here. The film incorporates rare early footage of the band performing; including a live show at the UFO Club, and an appearance with former landlord Mick Leonard on Tomorrows World. There are also insights from former girlfriends, landlords, flat mates, producers, manage friends and famous fans.

As one of the most famous creators and characters of the psychedelic era, Syd Barrett h not conducted an interview or released music between the early seventies and his recent passing, yet his self-imposed anonymity still fascinates fans old and new. The original songwriter for Pink Floyd was only with the band for a vibrant 3 years when he left in 1968, yet when the band released their greatest hits album in 2001 Syd had written ove fifth of the tracks. It's been nearly 40 years since Syd Barrett left the band, yet mystery still surrounds this prodigy of rock.

This fascinating documentary traces the creative and personal tumult of Barrett's days w Pink Floyd, and the fallout from his psychedelics induced breakdown.
