Post by: **woodypatof** on **March 21, 2006, 12:47:04 AM**

LOVEDOLLS SUPERSTAR: FULLY REALIZED is a new DVD available from MVD. Here is the description they give...

We Got Power Films presents David Markey's 2004 directors cut "Lovedolls Superstar Fully Realized". The Lovedolls return from their untimely demise in this 1986 sequel to "Desperate Teenage Lovedolls". Patch Kelley (Janet Housden) becomes Patch Christ, the leader of an acid-damaged religious cult who rescues has been Kitty Karryall from a boozy, wasted life. Once reunited, they recruit Sunset Boulevard hooker Alexandria "Cheetah" Axethrasher to replace the recently murdered Bunny Tremelo (Hilary Rubens). With major rocking by Redd Kross, Sonic Youth, Meat Puppets, Dead Kennedys, & more! You can't kill a Lovedoll, babe... because Superstars never die!

Having had the chance to watch the DVD, it is a humour filled movie that I found very enjoyable. Lots of great music to be heard adds to the pleasure. Go to <https://mvd2b.com/> to check out this product and other music DVDs.
