JOHN FORD COLEY/Very Best of: He might not have the partner anymore, the financial muscle of the big leagues or the last 45 years since he opened Led Zep's first American tour, but he still has the mustache, the smile and the voice that powered a nice hatful of 70s soft rock hits, most of them reprised here on this new recording. Mixing in some 70s soft rock classics that he had nothing to do with but admire, this is a nice walk down memory lane complete with the indelible piano riffs that were part and parcel of the hits.
