**Lach's new (anti)CD: "The Calm Before"**

Anyone who has stuck it out until the end of the Monday Night Antihoot to hear Lach perform for "the waitress, the walls and the weirdos" knows that this legendary godfather of antifolk is also a unique, witty songwriter. With "The Calm Before," Lach has crafted a true record, utilizing talented guests and instrumentation to support his unique voice. All of the emotions behind Lach's surprising decision to leave the Sidewalk Cat@ are beautifully woven into these 13 songs. The characters in these tunes are torn between passions and practicalities, desperately trying to maintain their childlike sense of wonder in a world that relentlessly chisels away at their enthusiasm for art and life. As on previous records, Lach combines a post-Dylan lyrical sensibility with his fondness for Buddy Holly-ish song structures, but on this outing his acid tongue and punk aggression are refreshingly subdued. "The Calm Before" is a vulnerable, introspective statement that yields rewards to the discerning listener. Highly recommended. - BK
