Three decades after they stumbled into view with the song *Oh Bondage Up Yours!*, X-ray Spex haven't changed a bit. Sadly, that's not a compliment. On this 65-minute reunion gig, the band amateurishly bashes and crashes away while the charismatic but meagrely talented Poly Styrene yelps and wails off-key. On the plus side: They open and close the show with *Oh Bondage*. **Download:** *Oh Bondage Up Yours!*
