STARZ/Greatest Hits Live (GB Music) I recently discovered this band on You Tube and Clint over at MVD sent me this live disc to review and oh my god do I love this band. This is some awesome '70's style rock n roll. The band mix up songs from their releases and it is crazy to think that this band didn't get bigger than they did as I remember seeing some of their albums in my local Woolworth store years ago. This is pure rock n roll heaven to me and I will be buying this band's studio stuff for sure. This is an overlooked band for sure. Info: www.mvdb2b.com
