

## Eerie Von's SpiderCider

**EERIE VON'S SPIDERCIDER****"That's All There Is"**

Ghastly Records

Eerie Von, founding member of Danzig and Samhain, is back cutting new grooves with his first album since 2004's "Bad Dream No. 13 (also on Ghastly Records,)"

Metal fans may be disappointed, as this CD harkens back to Eerie's punk heritage in Rosemary's Babies. (Eerie was also a roadie and photographer for the Misfits.)

The ten tracks were completed, that is, written, performed, recorded and produced by Eerie at home in his studio.

SpiderCider is a new hard rock direction for Eerie, plus a return to his early roots.
