That's All There Is

Ok, I'd be a liar if I didn't tell the truth here....every song on this cd is good, BUT, it's all the same...every song is a very Ramones-ish track that's got the same sound, same guitar tone, same vocals, & overall, it's not a bad release from the former Danzig bassist, but what is truly lacking is the diversity to make it a great record...Eerie did everything himself on this cd, so it just sounds like Eerie with no changes at all...it's fine it that's what you like in music, but I love diversity & change..."Hey Louisa" is the stand out track on the disc in my opinion, but I think Eerie needs a little collaboration on the next solo cd to make a better product.
