**News: Atom And His Package gets the tribute treatment**

**Apr 20, 09**

[Atom And His Package](#), the one-man synth/sequencer-looping performance act of NYC-born Adam Goren which spanned the mid-nineties until 2003 and basically was just a creative way of talking through the most mundane of life's idiosyncrasies, is getting [the tribute treatment](#) with the just-released compilation called *Up End Atom*, featuring the likes of MC Lars, [mc chris](#), Zolof The Rock & Roll Destroyer and [The Emotron](#). Creatures of the world, rejoice. Also, a portion of the album's proceeds are going to the American Diabetes Association, to fight the disease that forced Atom to retire from music.
