Snyder can be credited with an interesting concept; however the screenplay needed extensive editing before being committed to film. There are several sex scenes that are so unnecessary and unappealing, patients taking Cialis or Viagra who experience erections lasting more than four hours could watch *The Quiet Arrangement* instead of calling their doctors. In a scene that could have been 30 seconds shorter, a man is watching a porno flick, unzips, takes out his penis, and starts stroking, then...fade to black. It is so anti-erotic, condom manufacturers might consider a boycott.
