

Kick Sunday's ass by checking out "death acoustic" singer [Nick Oliveri](#) (aka **Rex Everything**, formerly of **Queens of the Stone Age**, always of **Mondo Generator**). Oliveri is a major fence-sitter: One song is so-so dark acoustic rock, and then the very next track is more violent, louder and shred-ier. There's a Chino Moreno (of the Deftones) feel to the latter. And, if you haven't solved the mystery yet, it's these songs that are more intriguing. \$10, 10 p.m., [Khyber](#), 56 S. 2nd St., 215-238-5888.
