Album: Nick Oliveri - "Death Acoustic"

This is Nick Oliveri's recent solo album titled "*Death Acoustic*". I've always appreciated this man's ability to bring an angry, punk rock attitude to acoustic music and so it's beyond cool to see a complete album of him doing acoustic songs. It's even cooler to see him acoustically cover songs from past bands he's been in such as "*Love Has Passed Me By*" by Kyuss and "*I'm Gonna Leave You*" by Queens of the Stone Age. This is Oliveri's second solo album and is all in all a really enjoyable, angsty, comedy laced release. He's also doing a tour for this album right now so catch it if you can!

1. Start A Fight
2. Invisible Like The Sky
3. Dairy Queen
4. I'm Gonna Leave You
5. Love Has Passed Me By
6. II Blow
