NICK OLIVERI - Death Acoustic

Track Listing: Start a Fight, Invisible Like The Sky, Dairy Queen, I'm Gonna Leave You, Love Has Passed Me By, U Blow, Hybrid Moments, Unless I Can Kill, Follow Me, Outlaw Scumfuc

Rating: 5 stars!

The title of this cd says it all...the entire cd is Nick Oliveri unplugged...every song is punk rock based, but acoustic & simple! "Hybrid Moments" is my personal favorite...it's got the most depth & is the best written song, but the last song is the most memorable because it's a GG Allin song & it's so dirty that it's almost comical! Imagine if Johnny Cash was darker, more evil & punk...that's the best way to describe the tunes on this disc! "Dairy Queen" is immediately memorable because the chorus is catchy, but there's nothing on this disc that's commercial or that you'd hear on modern rock radio...this is singer songwriter material for angry people!
