BUG GIRL / Dirt In The Skirt (Impedance) Some really down in dirty old school rock n roll from this band and I really liked this. Just plug in the guitars, turn it up loud and blast away. This band is sort of like AC/DC in spots with a female singer. The band just churn out 100% bike riding rock n roll and the female singer has a great voice and her voice fits this band perfectly. Not many bands playing this style now and this is a welcome relief from all the crap out there. Info:
