

INCOGNITO LIVE IN LONDON: 30th Anniversary Concert - MVD

Incognito - far more than just a band. The sound visionary Jean-Paul “Bluey” Maunick has been pioneering in the mercurial acid jazz scene, and as a talent factory, Incognito has rolled out the red carpet for vocal prodigies, such as Jocelyn Brown and the best musicians from the British groove community. Short-lived musical trends have done nothing to damage the popularity of this multi-cultural band with their driving rhythms and elegant melodies and they have become a trademark all over the world, especially live.
