**Leonard Cohen's Lonesome Heroes
America's Music Legacy: Country & Western/Rock 'N Roll/Rhythm &
Blues/Gospel
Michael Schenker Group: Live in Tokyo: 30th Anniversary
Eric Sardinas and Big Motor: Live**

Also from MVD come live performances by propulsive blues-rockers **Eric Sardinas and Big Motor** and German rockers the **Michael Schenker Group**. Sardinas began listening to traditional Delta blues when he was 6 and he continues to be influenced by early 20th Century music. Legend has it that the Fort Lauderdale native committed the cardinal sin of **Jimi Hendrix** imitators by setting his guitar on fire and suffering third-degree burns to his wrist. Not cool.

The Schenker DVD was recorded in Japan during the group's 30th anniversary tour. Schenker was a founding member of the **Scorpions** and the DVD highlights material from that group, UFO the current ensemble and solo efforts.
