MICHAEL SCHENKER/Temple Of Rock/Live In Europe (MVD Visual and Audio) This comes out in DVD and CD and omg if this isn't an incredible release. I am a HUGE UFO fan and early Scorpions too and this double disc is packed with music from both bands as well as his solo stuff. 25 tunes and how can you go wrong these songs, "Armed and Ready", "Into The Arena", "Lights Out", "Rock Bottom", "Another Piece of Meat", "Cry For The Nations" and many, many more. The sound on this is unreal and Michael totally kills it on guitar. So far this is easily on my Top 10 of the year and I can't see 9 other beating this out. Incredible release and Michael makes love to that guitar big time and that sound that comes out of it is unholy. Info:
