LONG JOHN BALDRY

It Ain't Easy: Live At Iowa State University

(MVD Visual)

by Chris Forbes

This was another bore to me. This is blues music and this didn't do a thing for me. The songs just dragged on and his voice was gruff and I couldn't get into it at all and I thought his voice was awful. The songs lacked any kind of punch and dragged along like a snail. This was filmed at the same place as the other DVD from above and this was filmed in 1987 and the footage doesn't look too bad 20 years later. If this had gone on much longer I would have been fast asleep. Info: <http://www.mvdb2b.com>
