Titles: FASZINATION SUPERCARS, PORSCHE, HUMMER AND CLASSIC CARS...FROM MVD HOME ENTERTAINMENT...Supercars...The high-speed record is all-important at the Oval high-speed event in Nardo. Who has the edge in the battle: Lamborghini, Porsche or the "tension" mutated BMW M6 from AC Schnitzer? It's impossible to compare the first of just twenty Lamborghini Reventon models built. So it should just stick to competing with the only other real contestant: a fighter jet. The BMW M3 has to compete against the fortified C63 AMG in the test. Who will come out top of the sporty medium-class? The Pagani Zonda S is extremely exotic: 555 PS and 400,000 euros make that pretty clear! Patrick Simon tests a tough sports car with elegant touches: the exclusive Carlsson CK65 Eau Rouge. At half a million euros and with over 1000 Nm torque, it only knows one way to go: forwards! The motorbike manufacturer KTM presents its first sports car, the X Bow. 220 PS strong and 700 kilos. Patrick Simon tests this surface-to-surface missile. Retro-purism in the French Alps: after 20 years, Stig Blomqvist climbs into the legendary Ur-Quattro Audi S1 to conquer the Col de Turini once again...Porsche...On June 8th, 1948, a new chapter of automobile history began. It was on this day that the first Porsche prototype, with the identification number 356-001, received the official approval for road service. A dream had come true for Ferry Porsche and his inventive and pioneering spirit continues to shape the philosophy of the company even today. Nobody in those days could have foreseen Porsche's rise from such modest beginnings to one of the most important car manufacturers in the world. Fascination Porsche clearly invokes the Porsche myth: its history, its success in motor sports, the 911 sign and the development of the later Porsche models. The documentation is accompanied by Walter Rhrh who has worked on Porsche sports cars since 1992. Porsche presents the best rally driver in the world an extremely fast and safe car. Driving pleasure guaranteed! For many, the Transsyberia rally is the most challenging rally in the world. The reporting team accompanies rally-driver Armin Schwarz, the European champion, in a modified Porsche Cayenne. From Moscow all the way to Mongolia. An ordeal of 7,200 kilometers. Through the forests of Russia, over mountain peaks and the Mongolian highlands. Pure adventure for machine and man...Hummer...The Hummer: off-road giant with a license to stand out. For fans, it's powerful, strong and cool. For critics, it's showy, unpractical and pointless. Either way, it's still extraordinary. No wonder, it's designed like a tank and has the CO2 emissions of a coal-fired power plant. We visit the Hummer World Run, the world's first get-together for off road giants with 200 vehicles and over 12,000 fans from all over the world. Three off-road vehicles with eight ton live-weight show what they're made of in an extreme test: Hummer H1, H2 and H3 go off-road, pushing their limits and beyond. We also accompany the Hummer racing team on the German off-road championship. The two top drivers are a married couple. They get into a great big mud fight with their opponents, but it's rocking in the cockpit too...Classic Cars...Modern Classic Cars - no longer manufactured but not yet classic. Everyday cars from the past become coveted cars for connoisseurs. This DVD shows you: Five volunteers fighting back the rust: in just one month an 02 BMW has to be restored AND entered in its first race. Is that possible? Also exciting car tests with: Datsun 240Z, Golf 1 GTi, Lancia Delta Integrale, the most interesting modern classic convertibles and comparable cars, such as Mercedes SLC from AMG...IF YOU HAVE SOMEONE WHO LOVES CARS, OLD AND NEW THESE DVDS ARE

THE BEST I'VE EVER SEEN ABOUT CARS. THESE WILL MAKE A TERRIFIC  
CHRISTMAS GIFT FOR SOMEONE SPECIAL. THEY COME IN ANAMORPHIC 16X9 AND  
5.1 SOUND MIX!
