MIKE STERN BAND/Same (Inakustik) I have never heard of this guy before, but this didn't do much for me. I thought the songs were boring and the saxophone sounded out of place on this and this was just too blues oriented for me to get into it. I like some jazz and stuff and I would say the other 2 DVD's listed below are a much better investment. This just didn't pull any buttons for me. Info:
