Soft Machine Legacy: Live At The New Morning Paris (CD Set)

Sound: B- Music: B-

After several DVD-Video releases from the **New Morning Paris** series, we have our first CD version of one of the concerts from Inakustik, a major import name in music concerts. In this case, we never received the DVD version of **Soft Machine Legacy** live, especially with this concert. The ten long, and often slow (making them longer) tracks needed two CDs and they are:

- 1) *Ash*
- 2) *Seven For Lee*
- 3) *1212*
- 4) *Baker's Treat*
- 5) *Has Riff*
- 6) *Kings & Queens*
- 7) *Sideburn*
- 8) *Two Down*
- 9) *Kite Runner*
- 10) *Strange Comfort*

These are original composition by the band members and unless you like

your laidback Jazz this slow, you will not enjoy this very much. I hoped it would pick up at some point, but it is one of the most boring such concerts of many such we have heard around here in a while. They have talent, but simply are not for everyone.

Making it more difficult is the rather limited and somewhat compressed PCM 2.0 16bit/44.1kHz Stereo sound, which is not up to the high standards of the DTS DVDs in this series by a longshot. Considering this was taped December 12th, 2005, that is really bad. For diehard Jazz fans only!
