**ProGGnosis Comments & Reviews**

<p><b>Marc</b></p>	<p>Published on: 9 Aug 2006</p> <p>After having viewed this excellent show on DVD, I now have the chance to listen to this concert with this double CD.</p> <p>In my review of the DVD I wrote... " Four exceptional musicians playing at their best. Not the least, watching <b>Elton Dean</b> giving such an exceptional performance just a few months before his premature death is a moving experience indeed." Well this remains true about the CDs, but it is easier to concentrate on the musicians' performances in this format.</p> <p><i>Live At The New Morning</i> offers great sound quality and packaging of this INCREDIBLE evening. A must have for any Jazz/Fusion/Prog lover.</p> <hr style="border: 1px solid green;"/>
