

MSG/In The Midst Of Beauty (Inakustik) I have always had a spot in my heart for this band and hot damn if this release didn't totally blow me away. I was expecting something good from this, but this was incredible. Riffs that had my neck banging and vocals that just so totally belong with this band. How Michael can still come up with the goods after all these years is beyond me. Michael has never sounded better on the guitar and those classic Schenker riffs are abound. This is just what the doctor ordered. And no that wasn't meant as a pun. Incredible release. Info:
