ALL ACCESS PRESENTS:

The Remix Volume 1

Kraze

***.5

The onslaught of DVD mix magazines/tapes exploded in 2005. All Access is one of the genres more popular names. Their first "legal" (see bar-coded) DVD features some of the series many highlights. Features to check for include Joe Budden and Gloria Velez discussing their sexual experiences...with each other, Santana and Diplomats planning world domination and a great look at a Mike Jones promo trip to New York, showcasing one of Hip-Hop's most focused artists and business men. Be warned of filler material, such as on-set with Cuban Link (does he even have a video out?) and what's labeled as a Young Jeezy "freestyle", but turns out to be lyrics found on his debut album's intro.
