

A full twenty five years after his death, Video Service Corp and MVD Visual celebrate Andy Kaufman's unique brand of comedy with the release of *My Breakfast With Blassie* on June 16th. This film offers insight into the state of mind of Kaufman before his fatal cancer diagnosis, which some people to this day think was a hoax. Kaufman was memorably portrayed by Jim Carrey in the Milos Forman biopic *Man On the Moon*, which focused on Kaufman's career and life, including his later obsession with

professional wrestling.

*My Breakfast With Blassie*, filmed in 1983, features Kaufman and wrestling legend Fred Blassie, self-proclaimed King of Men and coiner of the phrase "pencil-necked geek," as they meet for breakfast and discuss wrestling, hygiene, stardom and whether to eat bacon or sausage.

This classic piece of performance art from one of our greatest comedians was deemed, "often crude, but always creative," by TV Guide and also features a heaping plate of bonus features, including lost footage of Kaufman, bonus footage, a making-of feature and more.
