## Andy Kaufman

My pal Clint sent along this DVD so that I would let you know that Andy Kaufman's inexplicable and fascinating 1983 theater piece, *My Breakfast With Blassie*, is being released on DVD [today](#). Insultingly misogynistic pro-wrestler Freddie Blassie is the unwitting accomplice in Kaufman's slice of life take-off of filmdom's *My Dinner With Andre*. Andy and Freddie discuss... well, some weird things... while pissing off other diners at a local Sambo's restaurant. This 2009 reissue includes bonus features, lost footage, home movies and a making-of feature. Amazon.
