

Dennis Ferrer

'Church Lady'

(KING STREET SOUNDS)

Lifted from Dennis' forthcoming 'The World As I See It' long player, and very much big all over, is this already proven anthem. This updated release augments the original's combination of gospel sensibilities with the good old-fashioned House stalwarts of pounding beats and crunchy Organ with new mixes from Thommy & DJ Spen, and Rodamaal. The former unquestionably lifts the party skywards with the addition of uplifting piano and a funky vocal rhythm, with the later transforming it into something completely different via a dark techy edge.
