NOISEHUNTER/TimeTo Fight (Karthago Records) Absolutely crushing heavy metal is the ticket here. This is a re-issue as this came out in 1986 and what a re-issue it is. This band I have never heard of, but I am glad I have heard them now. The riffs on this will have you putting on the steel and the denim jacket and banging that head like never before. 9 killer metal tunes with 4 bonus tracks and this is just rip roaring metal with bits of power metal thrown in for good measure.

Incredible band. Info:
