NOISEHUNTER/Rock Shower (Karthago Records) The 3rd re-release I got and this band hit the trifecta as this is another example of killer power metal meeting plain ole heavy metal. Just great metal riffs and singing. You can't just buy, you must get all 3! Just a great lost gem from the 80's that I missed, but now you can be like me and discover them and trust me this is one awesome band. Info:
