THE PLOT

James and Mike are angry that art films get all the credit that horror films deserve, so they get a script directly from the Devil and embark on a mission to make the sickest horror anthology movie of all time – one filled with gratuitous nudity, gallons of gore and the most insane psychobilly, punk and metal soundtrack ever! And with legends like Lynn Lowry, Debbie Rochon, Dave Brockie, Troma's Lloyd Kaufman and ODERUS URUNGUS from GWAR as their stars – get ready for the most demented, blood-drenched horror comedy adventure ever committed to film. This ain't art – this is HACK JOB!

HOWS THE MOVIE?

Hack Job may be a film that is trying to be a little tongue in cheek with its title considering some of the contents of the film appear to be hacked together. Now I don't mean that in a bad way. What I simple mean is the film is told in an anthology format which allows what appears to be different short films that James Balsamo has done over the years and connected together here in this format to be able to come together in a less awkward fashion. Some of these shorts are better

than others, but if there is one thing that does stand out and is good it would be the comedic aspect of the film as whole. I noticed that even if things get kind of bad on screen it can still make you laugh.

We do get some cameos from some rather well known people, some work very well and some are toss away cameos and others are more useful to the cause overall. Like I have already pointed out, some of what you get here is a bit on the hit or miss side of things. When it hits it works, but when it misses it does seem to be waaaaay off the mark. But I do respect this type of film for what it is and did find a lot of it to be on the hilarious side of things for one reason or another.
