BULLDOZER/Alive In Poland (Metal Mind Productions) This is a live concert that was recorded in November 1989. Bulldozer were a thrash metal band in the vein of early Venom. 11 tunes are on this including a cover tune, "Overkill" by Motorhead, which sounded good to these ears. The band tear through these tunes

with a fury and the band sound tight live. Not a bad tune on this and the Motorhead cover was a pleasant surprise as well. A really strong live release.
