

VIOLENT FORCE

Malevolent Assault of Tomorrow

[Metal Mind](#)

Kudos to Metal Mind for unearthing and re-releasing this lost 1987 gem by Germany's obscure Violent Force. I, for one, somehow missed these guys back then and I'm sorry I'm so late for the party!

I hear equal parts of the following 4 classic thrash albums: *Endless Pain* by Kreator, *Violent Restitution* by Razor, *Hell Awaits* by Slayer, and *Riders of Doom* by Deathrow. If you are familiar with those works, that is all you really need to know to put this on your "to buy" list.

To sum up, *M.A.O.T.* is some quality, violent thrash that embodies everything done right by German thrash bands of the late 1980's.
