BELIEVER/Sanity Obscure (Metal Mind Productions) This is a re-release of the bands 2nd release and it is just as awesome as the above release. This is more killer thrash metal and the band inject a dose of German like thrash to their sound and the songs here sound fresh and just plain ripped. Crushing riff after riff of pure thrash and the band on one song use opera vocals and an orchestra, but this was done WAY BEFORE it got trendy and overdone like today. The band also mixed in some complex riffs and just listening to this made me appreciate the band now more than ever. This band were original and different and not afraid to take a chance and this is also a must get. Info:
