LILLIAN AXE/Love + War (Metal Mind Productions) This is the 2nd re-release that I got and it is another solid performance of rock n roll with a pinch of metal. This band to me wasn't like Poison, Ratt, Motley Crue, etc as they were more rock n roll based and had a less of a hair metal band sound, though they looked that part ha ha. The band wrote another set of solid rock n roll tunes with lots of hooks and the singer sang the songs with passion and feeling as listening to these 2 releases it is a wonder why they didn't become bigger than they did cause there are better than a lot of the other bands that came out during the "hair metal" era. Both discs are worthy purchases of rock n roll. Info: www.mvdb2b.com
