DIAMOND HEAD/Borrowed Time (Metal Mind Productions) This is another re-issue from this awesome label and you get 6 bonus tracks on this plus an interview. The band sounds good on this and even though I will say you can tell this is dated metal, but it still sounds good to my ears. This includes "Am I Evil" which Metallica covered. This is NWOBHM all the way and though I don't think this is great, it is cool and heavy. If you're a fan of the band, you need this, plus the 6 bonus tracks. Info: www.mvdb2b.com
