Rating: 5 stars

In this killer collection from the Christian Death Metal band, Mortification, you have 2 releases here that I am reviewing..there's a double cd packaging of "The Silver Chord..." & "Ten Years Live Not Dead" that's packaged in a 2 disc packaging & there there's "Primitive Rhythm Machine" that's packaged as a single disc. Every disc is limited to 2,000 numbered copies, worldwide, & there's a slew o' bonus tracks not included on the original pressings! Mortification are a Christian Death Metal band that believes in offering a postive message in their music, they sing about salvation & saviour, as opposed to Satan & the darkside, & if you didn't know any better, you would have no idea they were a Christian band! The bands gone through several line up changes & these cd's show that, & what's a living testament (n pun inteneded!) to the bands longevity is the fact that the bands singer was diagnosed with cancer & beat it..something that he credits to his faith in Jesus. What I find interesting about the band is their positive swing on things...they are all about finding a better way, about belief, & even if you don't care for Christian based music, you can't deny that Mortification can tear it up!
