

WINTER

'Into Darkness/Eternal Frost'

METAL MIND

Winter gave birth to the Elephant Man of doom, an ugly hybrid of primitive crust and 'Tom G Warriorisms' even bleaker than both Sorrow and Crowbar in their short scorn-filled, four-year lifespan. Sixteen years after its initial release, and once again compiled here with their 'Eternal Frost' EP, 'Into Darkness' is still fucked-up as hell and totally 'kvlt'. [9] **OZB**
