BLIND FURY/Out Of Reach (Metal Mind Productions) This is some kick ass heavy metal bordering on power metal at times. I had never heard of this band, but from reading the bio they formed out of the ashes of the band Satan. This is pure fist banging metal with some awesome vocals. The tunes have great hooks and melodies and they will have that neck moving in mere seconds. Shame this is the bands only ever release, but it was a goodie. Think early Judas Priest, Omen, Helstar, etc and you will get an idea of this. A pure heavy metal delight and a big horns up for Metal Mind for putting this back out. A must have for any fan of pure 80's heavy metal. Info:
