STEEL PROPHET/Unseen (Metal Mind Productions) I have heard this bands name before, but never their music. This originally came out in 2002 and now Metal Mind is reissuing it and this is some killer melodic power metal. The singer has a very good melodic voice and he fits the music rather well. The tunes are all catchy power metal numbers with some melody in them and plenty of hooks that get my neck moving to the music. I am surprised I missed this the 1st time around and horns up for Metal Mind for putting this out. Info:
