- CHRIS FORBES

THUNDERSTONE/The Burning (Metal Mind Productions) This is a re-release of this band's 2nd release from a few years back. This is simply some awesome power metal that has tons of great hooks and melodies and speed and power to boot. Some of the most awesome vocals I have ever heard and this baby just smokes. 6 bonus tracks including a awesome cover of Metallica's "Welcome Home Sanitarium" that has to be heard to be believed. The record label says this was one of the best power metal releases and I am not going to argue that as this is easily one of the best power metal releases I have heard in my life and this is an excellent release and prepare your neck for many, many workouts.
