

LAST CRACK/Sinister Funkhouse # 17 (Metal Mind Productions-originally released on Roadracer)

While this isn't as good as the release right up above, it is still a pretty solid release. I had never heard this before and it is a bit more tempo and less of a mood than the above release. The band still write some crazy off the wall riffs and song arrangements you can believe that. There is also a bit more of a thrashy, more metal sound to this release. Both of these releases are absolute musts to pick up if you want to hear an original band that will take you on a musical ride you won't soon forget. Info:
