

BULLDOZER/The Final Separation (Metal Mind Productions) This is the band's 2nd release and it is not as much Venom influenced, though the Venom tough is there. The band sort of branch out a bit more on their own on this, but still retain that raw sound they were known for. Think Tank, Motorhead and Venom rolled into a blender. This is raw, powerful thrash metal that to this day sounds fresh and makes my ears bleed.
