

BULLDOZER/The Day Of Wrath (Metal Mind Productions) This is a re-release of the band's 1st release. This band in their day was a more of a cult type of band. The band on this release play very raw almost black metal in the vein of the 1st 2 Venom albums. That was what the band was known for way back when as Venom Jr at times. Listening to this I can see the comparison to Venom in the way the songs are structured and also the way the singing is done. This is raw thrash metal and also includes a bonus track and if you love "Black Metal" from Venom, you'll go nuts over this and don't get me wrong, this in my eyes is a killer slab of old school metal that will suck you dry.
