This was the second and last album that this band put out and it was in my opinion a great follow-up to the first one. A great blend of melody and thought provoking lyrics. This band reminds one of Sacred Reich and Dark Angel. I guess the band splitting up after two records can be a positive thing. They become a "cult" status band and people revere them forever after. On this release you have more mature vocals as well as some musical experimentation with a bit of hardcore and punk thrown in. They did retain the heavy riffs. It would be really cool to see a third release and now would be a great time to do that with the re-emergence of their two releases.
