

OPTIMUM WOUND PROFILE/Lowest Common Dominator (Metal Mind Productions)  
This is the bands 1st album re-released and it is even better than the above release. Pure industrial extreme metal that put a huge smile on my face. This hits hard and fast and shows no mercy. This came out during the whole Ministry, Godflesh wave and it kills like the 2 aforementioned bands. This is fast, extreme and hits with power and doesn't let up. Both releases are well worth getting. Info:
