

QUICK CHANGE/Circus of Death (Metal Mind Productions) Oh what a great re-release this is. I have never heard of this band, but my friend Scott told me their CD was going for \$50 on EBay. Now I know why. This is killer 80's thrash with tons of hooks, speed, passion and emotion. You also get 2 bonus tracks too. The band are a 80's style thrash band with tons of those gallop thrash riffs and screaming vocals. I don't know how I missed this band the 1st time around and if your a fan of thrash or quality music, don't be fooled by wimpy thrash bands. This band is the real deal trust me and is worth hunting down and buying. A huge thanks for Metal Mind for putting this baby out. You guys rule!
