

PARADOX/Hershey (Metal Mind Productions) This was the 2nd release from this killer power/speed metal band and what I release it is. Chock full of monster riffs that are both catchy and fast. This is almost melodic in spots it is so damn catchy. The vocals are powerful, clear and fit the band well. Just listening will make your neck sore trust me. This is the perfect blend of speed, melody and power. You also get 3 bonus tracks and a mega horns up from me on this baby. Info:
